BEAUTIFUL BREAKFASTS

WHY BREAKFAST MATTERS

Breakfast sometimes seems like more of a hassle than it's worth. Kids need to be dressed, lunches made, missing socks and shoes hunted down and everyone needs to be off to school and work, so we simply skip this meal and move on with our day. For many people breakfast, is eaten on the move or at a desk in the office. Recent studies show that it doesn't have to be eaten immediately as soon as you get out of bed but it is a very important start to the day for your body and mind. It is the first fuel they receive after fasting to get all the many complex systems up and running for the day ahead.

NB ★ - means you can use these breakfasts as an occasional change from smoothies, after the first 14 days.

HIGH PROTEIN CHOCOLATE PANCAKES

Ingredients

1 scoop of chocolate Macronutrient powder (or raw cacao powder with a few vanilla drops)
1 banana (NOT OVER RIPE)
