HEALTHY AND HEARTY MEALS

Evening Meal choices - Your evening meals can be as simple or as inventive as you like. There are 3 rules to think about

1. You need to keep away from the food that you are excluding e.g fast food and highly processed ready meals etc.
2. Make sure you have lots of greens and just one root veg.
3. You must keep an eye on your portion sizes.

Any meat and green veg or fish and green veg are good and carrots, sweet potato and parsnips and a much better choice than potatoes. Also, use organic or grass-fed meat from a butcher, not a supermarket.
NB. Most of the meals can be converted to vegetarian or vegan simply swap out the animal protein for the plant protein of your choice.
Below is a good example of a simple recipe you can adapt for meat, fish, sea, vegetarian or vegan by swiping the chicken for plant protein.
